Flightstar Receives Award from Precision Conversions for a 757-200PCF Conversion

JACKSONVILLE, FL, -- August 14th, 2009 – Flightstar Aircraft Services (Flightstar), a leading provider of heavy aircraft maintenance and modifications, is pleased to announce that it has received an award from Precision Conversions to convert a B757-200 from passenger to freighter configuration for Aviation Capital Group. The B757-200 (MSN 25597) is currently undergoing an S4C airframe check along with the modification and will be complete in October of this year.

Matt Eaton, Flightstar's Vice President of Corporate Development said, "This award marks the 17th aircraft that we will be converting for Precision Conversions." He added, "We value the consistent workload that Precision Conversions has provided and look forward to being a continued partner in their ongoing success."

Flightstar began converting B757-200 aircraft for Precision Conversions in November of 2006 with the commencement of a seven aircraft conversion agreement and has since continued to serve Precision Conversions' modification and maintenance requirements for additional customers worldwide.

About Flightstar

Based at the Cecil Field Commerce Center in Jacksonville, Florida, Flightstar Aircraft Services, Inc.
